Index to Vol. XVI, 1894.

ACETONE, contraction of aqueous solutions of..... 618
Address by Dr. H. W. Wiley..... 1
Agricultural chemists, Washington meeting of (note)..... 431
Agricultural Report of Nebraska for 1893 (book review)..... 573
Air-Bath, new form of..... 31
AITKEN, A. P. A Rapid and Accurate Method of Determining the Moisture and Oil in Linseed Cakes and Other Feeding Stuffs..... 114
Albumen in cow's milk, determination of..... 712
Alloys of lead and tin and lead and antimony, valuation of..... 541
Alum, aluminum hydroxide and aluminum phosphate, influence on digestibility of bread..... 587
Alumina, remarks about basic sulphate of..... 153
Aluminum, notes on, 485; soldering (note)..... 880
ANDREWS, GEORGE FREDERICK. Notes on Aluminum..... 485
Arsenic tests of U. S. Pharmacopeia..... 580
Arsenopyrite, chemical behavior of..... 624
Assaying, manual of (book review) 142; loss of gold and silver in scorification assay, 313; accuracy of the commercial assay for silver, 505; with the blowpipe (book review)..... 571
Ash analysis, changes in official methods of (note)..... 792
Asphaltum, technical analysis of..... 809
Atmospheric element, a new (note)..... 719
Atomic weights, report of committee on..... 179

BALANCE, device for adjustment of, 699; safety attachment for riders..... 764
Baltimore meeting, the..... 73
Barium and strontium, occurrence in silicate rocks, 81; estimation of small amounts of 83
BASKERVILLE, CHARLES. Separation of Titanium from Iron, 427; Separation of Zirconium by Means of Sulphurous Acid..... 475
BEAL, W. H. The Determination of Volatile and Insoluble Fatty Acids in Butter Fat. 673
Bean, proteids of kidney..... 633, 703, 757
BEESON, J. L. Notes on the Estimation of Crude Fiber in Sugar Cane..... 308
Benzene in illuminating gas, determination of..... 697
Beryl, analyses of..... 65
Biochemistry, importance of the study of..... 261
BICKNELL, G. H. See Cremer, J. H.
BISHOP, H. A. Hydrogen Sulphide Generator..... 48
BIGELOW, W. D., and C. C. Hamilton. The Influence of Alum, Aluminum Hydroxide, and Aluminum Phosphate on the Digestibility of Bread..... 587
BLINKS, W. M. See Noyes, W. A.
Blowpipe, assaying with (book review)..... 571
Borax, volatility of..... 410
Boric acid works at Lardarelo, the..... 538
Botrytis bassiana, products of..... 860
BOWMAN, J. W. See Mason, W. P.
BRADBURY, ROBERT H. On the Reaction Between Molybdic Acid and Potassium Chromate and Bichromate..... 565

Brasses, analysis of..... 133
Bread containing alum, etc., digestibility of..... 587
Bronze, analysis of..... 133
Brooklyn meeting (announcement)..... 575
BRYANT, A. P. See Day, Wm. C.
Burette, an automatic zero..... 145
Burette clamp, a convenient (note)..... 719
Burette filler..... 870
BURR, HENRY C. See Smith, Edgar F.
BUSH, CHARLES S. Degras..... 535
Butter, determination of fatty acids in..... 673

CALCIUM bromide and iodide, hydration of..... 621
Calcium oxide, determination in quicklime..... 721
California wines, analyses of..... 597
CAMPBELL, E. D. Determination of Nickel in Nickel-Steel..... 96
Candle material, melting-point and composition of..... 825
Carbonic acid, apparatus for estimation of..... 204
CARR, OMA. Modification of Knorr's Extraction Apparatus..... 868
Cattle foods, recent progress in analysis of..... 174
Cement, chemical and physical examination of.....161, 283, 323, 374
Cerium, contributions to the chemistry of..... 649
Chemical and Metallurgical Handbook, Cremer and Bicknell (book review)..... 790
Chemistry teaching, quantitative work for beginners in chemistry, W. A. Noyes..... 59
Chlorine, estimation in water (note)..... 71
Clamp for burette, convenient (note)..... 719
CLARKE, F. W. Report of Committee on Determinations of Atomic Weights Published during 1893..... 179
CLASSEN, ALEXANDER. Quantitative Chemical Analysis by Electrolysis (book review)..... 877
Closing address before World's Congress of chemists..... 867
Condenser..... 871
Congresses, International Chemical (note)..... 880
Copper, analysis of..... 133, 785
Cream of tartar substitutes, analysis of..... 333
CREMER, J. H., and G. A. Bicknell. Chemical and Metallurgical Handbook, (book review)..... 790
CROBAUGH, FRANK L. Experiments on the Estimation of Graphite in Pig Metal..... 104
CROOKES, WM. Select Methods in Chemical Analysis (book review)..... 789
CROSSMAN, TOM. The Analysis of Malt..... 559
CURTMAN, CHARLES O. On Some of the Arsenic Tests of the U. S. Pharmacopeia (1890), 580; On the Hydration of Calcium Bromide and Iodide, 621; On the Quality of Potassium Iodide Sold in the Market as U. S. P., 678; Lessons in Qualitative and Volumetric Analysis (book review)..... 873
CUSHMAN, B. S. See Dennis, L. M.

DAVOLL, DAVID L., JR. Fallacies of Post-Mortem Tests for Morphine..... 799
DAVY, HUMPHREY. The Decomposition of the Fixed Alkalies and Alkaline Earths (book review)..... 717
DAY, DAVID T. Mineral Resources for 1893 (book review)..... 572
DAY, WM. C., and A. P. Bryant. Note on Pemberton's Method of Phosphoric Acid Determination as Compared with the Official Methods..... 282
DE BENNEVILLE, JAMES S. Laboratory Notes, 65; Experiments on the Analysis of Pig Copper, Brasses and Bronzes, 133; Experiments on a Ferro-Tungsten, 297; Some Alloys of Iron with Molybdenum, Tungsten, and Chromium as Solutions.. 735
DEWEY, F. P. The Accuracy of the Commercial Assay for Silver..... 505
Degras..... 535

De Koninck, L. L. A New Hydrogen Sulphide Generator Specially Adapted for Use in Analytical Laboratories..... 63
De Laire, G., and Ferd. Tiemann. Iridin, the Glucoside of the Iris Root..... 847
Dennis, L. M., and B. S. Cushman. On the Analytical Properties of Iron Phosphide and Phosphate..... 477
Dennis, L. M., and W. H. Magee. Contributions to the Chemistry of Cerium..... 649
De Schweinitz, E. A. The Importance of the Study of Biochemistry..... 261
Distillations, method for conducting a number of..... 150
Doolittle, O. S., and Alban Eavenson. Notes and Queries on Dr. Dudley's Method of Determining Phosphorus in Steel..... 234
Dudley, Chas. B., and F. N. Pease. An Attempt to Find the Amount of Phosphorus in Three Samples of Steel, 217; On Some Points in the Determination of Phosphorus in Steel by the Volumetric Method..... 224
Dudley, W. L. The Opening of the Kent Chemical Laboratory of the University of Chicago (note)..... 213

Eavenson, Alban. See Doolittle, O. S.
Eddy, Harrison P. Sewage Disposal at Worcester, Mass..... 682
Electro-chemical Analysis (book review)..... 574
Electrolysis, use of, in technical chemical processes, 49; analysis by (book review). 877
Electrolytic separations..... 93, 420
Elementary Manual of Chemistry, Storer and Lindsay (book review)..... 644
Element, new atmospheric (note)..... 719
Elliott, A. H. Qualitative Analysis (book review)..... 429
Errata..... 288, 648, 792, 882
Expert testimony..... 273
Extraction apparatus, modification of Knorr's..... 868

Fats and resins, new method of analyzing, 275; iodine figure of fats, 372; Koettstorfer figure of dark-colored..... 408
Fatty acids, determination of freezing-point, 665; in butter, determination, 673; for candles, melting-point of..... 825
Ferguson. A Compressed Air Wash-Bottle, 148; An Arrangement for Conducting a Number of Laboratory Distillations with Steam Simultaneously, 150; A Few Remarks About Basic Sulphate of Alumina..... 153
Fermentation of glucose syrups..... 808
Ferric chloride, speed of reduction by stannous chloride..... 314
Ferro-tungsten, experiments on..... 297
Fiber, note on estimation of crude, in sugar cane..... 308
Field, Walter D. Pyroxylin, Its Manufacture and Applications..... 487, 543
Filter disk, an improved..... 58
Fletcher, E. L. Practical Instructions in Quantitative Assaying with the Blowpipe (book review)..... 571
Foods, recent progress in analysis of cattle..... 174
Forbes, Robert H. A Convenient Form of Apparatus for the Estimation of Carbonic Acid..... 204
Fractional distillation, apparatus for..... 160
Frankforter, G. B. The Iodides of Narceine..... 361
Frohman, E. D. See Noyes, W. A.
Fruit, mineral residues in sprayed (note)..... 71
Furman, H. Van F. A Manual of Practical Assaying (book review)..... 142

Garrigues, W. E. On the Gunning Method for Total Nitrogen in Fertilizers, 795; The Determinations of Melting-Points and the Composition of Some Candle Material, 825; Nitrogen in Fertilizers, Gunning Method for Determination of..... 795
Gem stones, specific gravities of some..... 205
Gilchrist, Peter S. Improvements in the Manufacture of Sulphuric Acid..... 498
Gill, Augustus H. On the Determination of Nitrates in Potable Water..... 122, 193

GIRD, W. K. A Gravimeter for Sugar Analysis 677
GLADDING, THOMAS S. On the Estimation of Sulphur in Pyrites 398
Glass, scale of hardness for 406
Glucose syrups, fermentation of 808
Gold, loss in scorification assay 313
Graphite, estimation in pig-metal 104
Gravimeter for sugar analysis 677
GREEN, FRANK T. A Device for the Adjustment of a Balance 699
GREINER, EMIL. A New Automatic Pipette 643
GRIFFIN and Little. The Chemistry of Paper-Making (book review) 875

HALE, A. C. Circular of Announcements for Brooklyn Meeting 575
HAMILTON, C. C. See Bigelow, W. D.
HANCOCK, DAVID. Preparation of Standard Iodine Solutions (note) 431
Handbook, Bicknell and Cremer, Chemical and Metallurgical (book review) 790
HANDY, JAMES O. The Exact Determination of Phosphorus by the Molybdate Method in Iron, Steel, and Ores Which Contain Arsenic 231

Contents of Vol. XVI, 1894.

JANUARY.

The Waste and Conservation of Plant Food. By Harvey W. Wiley.. 1
A New Form of Air-Bath. By Ewald Sauer..... 31
The Chemical and Physical Investigation of Soils. By E. W. Hilgard 34
Hydrogen Sulphide Generator. By H. A. Bishop..... 48
The Use of Electrolysis in Technical Chemical Processes. By J. W. Langley..... 49
The Iodine Figure of Rosin. By Parker C. McIlhiney..... 56
An Improved Filter-Disk. By Max Kaehler..... 58
Quantitative Work for Beginners in Chemistry. By W. A. Noyes... 59
A New Hydrogen Sulphide Generator Specially Adapted for Use in Analytical Laboratories. By L. L. DeKoninck..... 63
Laboratory Notes. By James S. DeBenneville..... 65
Patents of Interest to Chemists. Edited by Albert H. Welles..... 67
New Books..... 69
Notes..... 71

FEBRUARY.

The Baltimore Meeting..... 73
The Widespread Occurrence of Barium and Strontium in Silicate Rocks. By W. F. Hillebrand..... 81
The Estimation of Small Amounts of Barium and Strontium in Silicate Analysis. By W. F. Hillebrand..... 83
A Plea for Greater Completeness in Chemical Rock Analysis. By W. F. Hillebrand..... 90
Electrolytic Separations. By Edgar F. Smith..... 93
Determination of Nickel in Nickel-Steel. By E. D. Campbell..... 96
Preliminary Report of the Committee on the Tariff..... 102
Experiments on the Estimation of Graphite in Pig Metal. By Frank L. Crobaugh..... 104
The Detection of Strychnine in an Exhumed Human Body. By W. A. Noyes..... 108
Notes on Determination of Nickel in Steel. By Joseph Westesson.. 110
A Correction. By H. L. Payne..... 112
A Rapid and Accurate Method of Determining the Moisture and Oil in Linseed Cakes and Other Feeding Stuffs. By A. P. Aitken... 114
On the Determination of Nitrates in Potable Water. By Augustus H. Gill..... 122
Experiments on the Analysis of Pig Copper, Brasses and Bronzes. By James S. DeBenneville..... 133

International Standards for the Analysis of Iron and Steel..... 140
New Books..... 142

MARCH.

Automatic Zero Burette. By Edward R. Squibb..... 145
A Compressed Air Wash-Bottle. By W. C. Ferguson..... 148
An Arrangement for Conducting a Number of Laboratory Distillations With Steam Simultaneously. By W. C. Ferguson 150
A New Muffle for Incineration of Sugar. By H. Schweitzer and E. Lungwitz 151
A Few Remarks About Basic Sulphate of Alumina. By W. C. Ferguson..... 153
Dropping Flask for Standard Solutions. By Frank Vanderpoel..... 156
On the Estimation of Potassium Iodide and Sodium Acetate in the Presence of Complex Organic Mixtures. By James H. Stebbins, Jr..... 157
Apparatus for Fractional Distillation. By C. W. Volney..... 160
The Chemical and Physical Examination of Portland Cement. By Thomas B. Stillman..... 161
Recent Progress in the Analysis of Cattle Foods. By F. W. Woll... 174
Report of Committee on Determinations of Atomic Weights Published During 1893. By F. W. Clarke..... 179
Upon the Determination of Nitrates in Potable Water. By Augustus H. Gill. Part II..... 193
Detection of Salicylic Acid in Food. By K. P. McElroy 198
A Convenient Form of Apparatus for the Estimation of Carbonic Acid. By Robert H. Forbes..... 204
The Specific Gravities of Some Gem Stones. By A. Liversidge..... 205
Notes on the Grandeau Method for the Determination of Humus in Soils. By Harry Snyder..... 210
Notes 213

APRIL.

An Attempt to Find the Amount of Phosphorus in Three Samples of Steel. By Chas. B. Dudley and F. N. Pease..... 217
On Some Points in the Determination of Phosphorus in Steel by the Volumetric Method. By Chas. B. Dudley and F. N. Pease..... 224
The Exact Determination of Phosphorus by the Molybdate Method in Iron, Steel, and Ores Which Contain Arsenic. By James O. Handy 231
Notes and Queries on Dr. Dudley's Method of Determining Phosphorus in Steel. By O. S. Doolittle and Alban Eavenson..... 234
On the Qualitative Determination of Tanning Materials. By H. R. Procter 247
The Importance of the Study of Biochemistry. By E. A. de Schweinitz..... 261
Determination of the Crystallizable Sugar in the Beet. By H. Pellet. 266

Expert Testimony. By Wm. P. Mason 273
A New Method of Analyzing Fats and Resins. By Parker C. McIlhiney 275
On the Determination of Phosphoric Acid. By H. Pemberton, Jr ... 278
Note on Pemberton's Method of Phosphoric Acid Determination as Compared with the Official Methods. By Wm. C. Day and A. P. Bryant 282
The Chemical and Physical Examination of Portland Cement. By Thomas B. Stillman 283
International Standards for the Analysis of Iron and Steel 286
Erratum 288

MAY.

On the Determination of Phosphoric Acid as Magnesium Pyrophosphate. By Hugo Neubauer 289
Experiments on a Ferro-Tungsten. By James S. de Benneville 297
The Direct Estimation of Citrate Soluble Phosphoric Acid. By B. B. Ross 304
Notes on the Estimation of Crude Fiber in Sugar Cane. By J. L. Beeson 308
Loss of Gold and Silver During Scorification Assay. By W. P. Mason and J. W. Bowman 313
On the Speed of Reduction of Ferric Chloride by Stannous Chloride. By Louis Kahlenberg 324
The Chemical and Physical Examination of Portland Cement. By Thomas B. Stillman 323
Cream of Tartar Substitutes: Their Chemistry and Analysis. By W. E. Wadman 333
The Analysis of Varnishes. By Parker C. McIlhiney 344
The Analysis of Malt. By John A. Miller 353

JUNE.

The Iodides of Narceine. By G. B. Frankforter 361
Some Sources of Error in Our Methods of Determining Potash in Fertilizers and German Potash Salts. By N. Robinson 364
Gantter's Process for Determining the Iodine Figure of Fats. By Parker C. McIlhiney 372
The Chemical and Physical Examination of Portland Cement. By Thomas B. Stillman 374
The Quantitative Separation of Rosin Oil from Mineral Oils. By Parker C. McIlhiney 385
Ruthenium and its Nitrosochlorides. By James Lewis Howe 388
An Improved Mercury Thermometer for High Temperatures. By W. Niehls 396
On the Estimation of Sulphur in Pyrites. By Thomas S. Gladding 398
A Constant Level Apparatus. By F. C. Robinson 405
A Scale of Hardness for Glass. By W. Niehls 406

A Method of Determining the Koettstorfer Figure of Dark-Colored Substances. By Parker C. McIlhiney 408
On the Volatility of Borax. By Sigmund Waldbott 410
On the Volatility of Sodium Fluoride. By Sigmund Waldbott 418
Electrolytic Separations. By Edgar F. Smith and Henry E. Spencer 420
The Action of Phosphorus Pentachloride Upon Molybdenum Trioxide. By Edgar F. Smith and George W. Sargent 425
Separation of Titanium from Iron. By Charles Baskerville 427
New Books 428
Notes 431

JULY.

Succinimid. By Edmund H. Miller 433
The Determination of Phosphoric Acid. By S. W. Johnson 462
Double Bromides of Palladium. By Edgar F. Smith and Daniel L. Wallace 465
An Examination of the Chlorides of Zirconium. By F. P. Venable .. 469
Separation of Zirconium by Means of Sulphurous Acid. By Charles Baskerville 475
On the Analytical Properties of Iron Phosphide and Phosphate. By L. M. Dennis and B. S. Cushman 477
Notes on Aluminum. By George Frederick Andrews 485
Pyroxylin, Its Manufacture and Applications. By Walter D. Field .. 487
Improvements in the Manufacture of Sulphuric Acid. By Peter S. Gilchrist 498
Note on the Determination of Silica in Blast-Furnace Slag. By P. W. Shimer 501
New Books 502

AUGUST.

The Accuracy of the Commercial Assay for Silver. By Frederick P. Dewey 505
The Achievements and Aims of Physical Chemistry. By J. E. Trevor 516
Proteids of the Wheat Kernel. By Thomas B. Osborne and Clark L. Voorhees 524
Degras. By Charles S. Bush 535
The Boric Acid Works at Lardarelo. By Wm. P. Mason 538
The Commercial Valuation of Lead-Tin and Lead-Antimony Alloys. By Joseph W. Richards 541
Pyroxylin, Its Manufacture and Applications. By Walter D. Field .. 543
Recent Work on the Sugars. By B. B. Ross 549
The Volumetric Determination of Phosphorus in Steel. By W. A. Noyes and E. D. Frohman 553
The Analysis of Malt. By Tom Crossman 559
On the Reaction Between Molybdic Acid and Potassium Chromate and Bichromate. By Robert H. Bradbury 565

Action of Molybdenum Dioxide Upon Silver Salts. By Edgar F. Smith and Owen L. Shinn 569
New Books 571
Ninth General Meeting of the American Chemical Society 575

SEPTEMBER.

An Attempt to Prepare Molybdenum Hexachloride. By Edgar F. Smith and Henry C. Burr 577
The Action of Hydrochloric Acid Gas Upon Sodium Vanadate. By Edgar F. Smith and Jos. G. Hibbs 578
On Some of the Arsenic Tests of the U. S. Pharmacopeia (1890). By Charles O. Curtman 580
The Influence of Alum, Aluminum Hydroxide and Aluminum Phosphate on the Digestibility of Bread. By W. D. Bigelow and C. C. Hamilton 587
Some Characteristics of California Wines. By W. H. Krug 597
Contraction of Aqueous Solutions of Acetone. By K. T. P. McElroy. 618
On the Hydration of Calcium Bromide and Iodide. By Charles O. Curtman 621
A Study of the Chemical Behavior of Arsenopyrite. By Thomas Montgomery Lightfoot 624
The Proteids of the Kidney Bean. By Thomas B. Osborne 633
A New Automatic Pipette. By Emil Greiner 643
New Books 644
NOTES: The Chemical Midwinter Fair Congress at San Francisco ... 645
Erratum 648

OCTOBER.

Contributions to the Chemistry of Cerium. By L. M. Dennis and W. H. Magee 649
Method for the Determination of the Freezing-Point of Fatty Acids. By F. Wolfbauer 665
Recent Work on the Sugars. By B. B. Ross 670
The Determination of Volatile and Insoluble Fatty Acids in Butter Fat. By W. H. Beal 673
A Gravimeter for Sugar Analysis. By W. K. Gird 677
On the Quality of Potassium Iodide, Sold in the Market as U. S. P. By Charles O. Curtman 678
Sewage Disposal at Worcester, Mass. By Harrison P. Eddy 682
Oil-Gas. By W. A. Noyes, W. M. Blinks, and A. V. H. Mory 688
The Determination of Benzene in Illuminating Gas. By W. A. Noyes and W. N. Blinks 697
A Device for the Adjustment of a Balance. By Frank T. Green 699
Note on a Form of Silver Obtained in the Reduction of the Sulphide by Hydrogen. By Francis C. Phillips 700
The Proteids of the Kidney Bean. By Thomas B. Osborne 703

The Determination of Albumen in Cow's Milk. By L. L. Van Slyke 712
An Apparatus ("Lysimeter") for Determining Solubilities. By Charles Rice 715
New Books 717
NOTES: Convenient Burette Clamp; New Atmospheric Element; The Post-Mortem Detection and Estimation of Strychnine 719

NOVEMBER.

A Method for Determining Calcium Oxide in Quicklime. By W. E. Stone and F. C. Scheuch 721
A Comparison of Methods for the Determination of Starch. By W. E. Stone 726
Notes on the Hardening of Mortar. By Wm. P. Mason 733
Some Alloys of Iron with Molybdenum, Tungsten and Chromium as Solutions. By James S. de Benneville 735
The Proteids of the Kidney Bean. By Thomas B. Osborne 757
A Safety Attachment for Riders. By Chas. E. Parker 764
On the Estimation of Phosphoric Acid by Titration of the Yellow Precipitate. By B. W. Kilgore 765
The Quality of Water Supplies. By Wm. P. Mason 772
The Proteids of Cottonseed. By Thomas B. Osborne and Clark G. Voorhees 778
On the Analysis of American Refined Copper. By Harry F. Keller. 785
New Books 789
NOTES: Changes in Official Methods of Soil and Ash Analysis 792
Erratum 792

DECEMBER.

The Determination of Phosphoric Acid by the Molybdate-Magnesia Method. By B. W. Kilgore 793
On the Gunning Method for Total Nitrogen in Fertilizers. By W. E. Garrigues 795
Fallacies of Post-Mortem Tests for Morphine. By David L. Davoll, Jr. 799
Fermentation of Glucose Syrups. By Horace E. Horton 808
On the Technical Analysis of Asphaltum. By Laura A. Linton 809
Action of Metallic Magnesium Upon Manganous Salts. By Jos. G. Hibbs and Edgar F. Smith 822
Note on the Test for Strychnine. By W. P. Mason and J. W. Bowman 824
The Determination of Melting-Points and the Composition of Some Candle Material. By W. E. Garrigues 825
Some Recent Contributions to Our Knowledge of Metallic Reducing Agents. By H. F. Keller 833
Observations on American Oil of Turpentine. By J. H. Long 844
Iridin, the Glucoside of the Iris Root. By G. de Laire and Ferd. Tiemann 847
Botrytis Bassiana and Its Crystalline Products. By E. Verson 860
Closing Address Delivered Before the World's Congress of Chemists, August 26, 1893. By Albert B. Prescott 867
Hydrogen Sulphide Generator. By H. G. Schanche 868
Modification of Knorr's Extraction Apparatus. By Oma Carr 868
Laboratory Devices. By Elwyn Waller 869
New Books 873
NOTES: International Chemical Congresses; Soldering Aluminum; Notes on a Device for Weighing Oil for Analysis 880
Errata 882
Index to Vol. XVI 883
